# A Continually Evolving CCT Ecosystem

The telecom industry has been reshaped by digitalisation and digital transformation - a new ecosystem has emerged that is continually evolving and that has led to a paradigm shift in the way telecom services and networks are deployed. The emergence of AI and generative AI is transforming the ecosystem and looks set to fundamentally transform the world we live in and with that the way every industry and vertical operates. The implications for networks, infrastructure and connectivity will be enormous.

Increasing pressure is continually being placed on existing infrastructure as a result of the demand for cloud, the proliferation of new services and applications, disruptive technologies, the ageing of existing infrastructure and the prospect of an AI future. Huge pressure is being placed on power resources to meet the needs of future connectivity hubs, financing models, investment strategies and subsea supply to meet demand. The cloud, content and telecoms ecosystem needs to evolve to meet these new demands whilst trying to enable all parts of it to thrive through new partnership and collaboration models.

What will the new commercial models look like and what will be the impact of disruption to existing ones? What will partnership and collaboration strategies between telcos and network infrastructure partners need to look like to enable this AI future? How will the topology of the networks need to be redefined to meet the needs of compute-intensive applications? What will be the alternative routes for raising capital? What fibre infrastructure will need to be built and how will these be financed? Can telco's service portfolios be transformed from legacy to digital and what platform-based models will be needed to support the digital age? How will the power conundrum be solved to meet the needs of data centre build-out? These are just some of the many critical questions executive leaders need to discuss, debate and answer.

## What is CCT 2025?

CCT 2025 – The Global Cloud, Content and Telecoms Executive Summit has firmly established itself as the industry's leading executive-level event platform to focus on the changing cloud, content and telecoms ecosystem. It enables discussion, dialogue and communication at the highest level on many of the industry challenges and allows executive leaders to learn from each other and look at ways to work together. CCT 2025 brings together the decision-makers from cloud providers and hyperscalers, fixed and mobile carriers and service providers, satellite players, interconnect and platform providers, data centre and real estate players, content and OTT providers, private equity and the investment community and large enterprises and bandwidth-intensive users from different enterprise verticals. It provides a unique opportunity to learn with peers, define priorities, advance agendas and shape the industry.

## Participation

Participation is by invitation - only and attendees must be at executive level ensuring a targeted and focused audience. The format is participative and interactive with expertly-facilitated boardroom-style discussions and brainstorming think tanks. To register your interest in attending please visit [www.cctevents.net](http://www.cctevents.net). The price to attend is €1399 per attendee.

## High-quality Content

- Evaluate digital infrastructure, network and connectivity requirements for future AI-driven workloads and compute-intensive applications.
- Assess what new partnership and collaboration models need to be put in place to meet future needs.
- Understand what the future fibre and connectivity needs will be across Europe to support new service demands and evaluate new commercial models to meet future requirements.
- Assess market outlook for raising capital and returns for investors.
- Debate how telcos can transform their service portfolios to remain viable.
- Analyse future potential of fabric-based models.
- Assess the future subsea supply pipeline to meet demand and create new solutions to overcome challenges.
- Evaluate the challenges of data movement across ecosystems.
- Determine future data centre requirements and find solutions to the power conundrum and shift towards telecoms and energy convergence.
- Explore new opportunities in fixed, mobile and satellite convergence.
- Gain insight from leading enterprises on their AI Strategy – is it an AI strategy or just another digital transformation?
- Learn new insights from media, entertainment and gaming sectors on their drivers of change and future innovation.
- Africa spotlight: analyse investment, connectivity and infrastructure requirements to meet the future needs and demands from this rapidly growing continent.

## Why is CCT 2025 Different?

- 1. Participative and interactive** – the format lends itself to interactive discussions through smaller, carefully chosen and expertly facilitated sessions with each attendee actively involved and participating. No press are invited and discussions are open. Attendees are at the same peer level as speakers enabling quality strategic discussion.
- 2. Executive-level attendees only** – CEOs, CTOs, CCOs, COOs, CIOs, CMOs, Chief Investment Officers, Heads of Network Investment, Strategy, Acquisition and Engineering ensuring a targeted and focused audience.
- 3. Participation from across the wider ecosystem:** Cloud Providers, Hyperscalers, Telecom Carriers and Service Providers, Content and OTT providers, Interconnect and Platform Providers, Data Centre Players, Data Management and Data Security Companies, CDN Players Real Estate Players, Large Enterprises and Media, Entertainment and Gaming Companies, Private Equity and the Investment Community.
- 4. Breadth of Content** – enables dialogue and high quality content sharing between different players within the ecosystem.
- 5. Unique platform in the industry** – learn and discuss with peers, define priorities, shape agendas and advance the future industry.
- 6. Content-rich** – no sales or company presentations or sales-driven exhibitions

## Registration

Registration is by invitation-only and attendees must meet executive level criteria. If you would like to be considered, please contact Rachel Jones at [racheljones@theintelligentnetwork.net](mailto:racheljones@theintelligentnetwork.net) or register your interest at [www.cctevents.net](http://www.cctevents.net)

**Price to attend:** €1399 per attendee. Additionally, there are discounted packages for multiple attendees from any one organisation.

## Partnership Opportunities

Are you interested in positioning your brand in front of the most influential leaders from across the global cloud, content and telecoms ecosystem? There are many partnership opportunities available at CCT 2025. Contact Rachel Jones at [racheljones@theintelligentnetwork.net](mailto:racheljones@theintelligentnetwork.net) for more information.
