What is CCT Africa 2025?

CCT Africa 2025 (The Pan-African Cloud, Content and Telecoms Executive Summit) provides a much-needed pan-African event bringing together exclusively executive level participants from the cloud, content and telecoms ecosystem from across Africa.

It provides a platform for open debate and discussion on strategic issues and challenges impacting on the development of the Pan-African digital infrastructure and network connectivity marketplace and allows executives to learn and discuss with peers, define priorities, advance agendas and shape the future development of the African market.

It provides a platform whereby the fixed line and mobile carrier, service provider, cloud, hyperscaler, data centre and investment community can gain a shared understanding on common areas of interest and look at real and actionable ways to work together, partner and collaborate.

It provides a strategic think tank for developing new ideas, strategies and business models to confront challenges faced and looks at new opportunities that will ultimately shape the future CCT ecosystem and enable connectivity across the continent.

Focus Areas:

> The evolving ecosystem and partnership and collaboration opportunities and models – the last 12 months and the next 12 months and how the pace of change can be accelerated to drive Africa's digital transformation forward.

> Market outlook, drivers and changing landscape.

> How can the market work together to deliver the inland connectivity the continent needs – fibre network expansiom, infrastructure sharing, cross border and in-country mergers.

> How will AI be applied in Africa and how will this drive value?

> Digital infrastructure financing and investment in Africa - how will the shortfall in investment be made up to enable the connectivity the continent needs?

> Overcoming subsea connectivity challenges of diversity and resiliency.

> How can the value of the cloud in Africa be unlocked, does the architecture for cloud need to be rethought in Africa and what new partnerships can be created to support cloud-based services and applications to meet demand?

> Do current data centre and connectivity models need to be adapted?

> what opportunities will the emergence of new LEO satellite solutions bring and how can satellite, wireless and terrestrial solutions be combined to reach underserved and unserved markets?

> Putting in place a transformational skills and talent programme to train Africa's future telecoms workforce.

Why is CCT Africa 2025 Different?

● **Executive-level attendees and Invitation-only:** CEOs, CTOs, COOs, CCOs, CSOs – attendees and speakers are all at the same peer level. The audience is purposefully small, targeted and focused. 95% of the audience in 2024 was CEOs and C-suite.

● **Participative and Interactive:** Designed to create a platform for interactive and strategic discussions with peers and enable dialogue and communication on the issues that matter.

● **Platform designed to Facilitate Actionable and Tangible Follow-Ups.** At CCT Africa 2025 a group of CEO executives will report back to the wider group on progress made in 3 initiatives agreed at the 2024 summit and announced in the 2024 MoU.

● **High-quality content with Expert Moderators and Speakers:** CCT Africa is led by expert moderators who ensure that the content flows optimally between each panel discussion and allows the attendees to really help drive the discussions in the direction of their needs.

● **Participation from across the ecosystem:** Hyperscalers, Fixed and Mobile Carriers and Service Providers, Data Centre/Interconnect Platform Providers, Content Providers, Digital Infrastructure Investment firms.

● **Unique Set-up:** Attendees and speakers are seated facing each other for maximum interaction and ability to action discussions as well as actively participate in the discussions – this is not a sales conference!

● **Incredible High Level Networking Opportunities:** The sublime Mauritian setting provides amazing networking opportunities for attendees in the form of golf, cocktail receptions, beach BBQ, private dinners and seated lunches allowing executives to really engage and have meaningful discussions with each other in a beautiful informal setting.

Hear what Executives say about CCT Africa

"I commend CCT Africa for its pivotal role in gathering thought leaders from across Africa to engage in dynamic conversations with actionable follow-ups. By focusing on the transformative potential of Cloud, Content and Telecommunications, we are advocating effectively for a forward-thinking Africa."

Marisa Trisolino,
CEO, CMC NETWORKS

"Attending CCT Africa 2024 provided an invaluable opportunity for executive leaders from the CCT ecosystem across Africa to openly discuss the challenges that are impacting on the development of pan-Africa connectivity and network infrastucture and actually work towards solutions. Tangible action points were created to impact change and enable Africa's future generations. The summit is a hugely important event in the calendar for executive leaders operating within Africa's CCT ecosystem."

Andile Ngcaba, Chairman,
CONVERGENCE PARTNERS

"CCT Africa 2024 brought together many of the executive leaders from across Africa and some of their partners across the world. The content quality as well as the opportunity to learn from and spend time with leaders in the digital ecosystem makes this a highly worthwhile, productive and unique summit and allows many of the key players across the continent to have tangible discussions on how to partner and collaborate to enhance connectivity and increase critically needed digital infrastructure across Africa.""

Lanre Kolade,
Chairman, CONNECTEDCOMPUTE

"One of the most well executed and effective summits I have been to."

Charly Bahous, CEO, TOUCHNET TELECOMMUNICATIONS (PTY) LTD

"CCT Africa 2024 provided an intimate setting in Mauritius for a closed group of like-minded individuals to gather and have meaningful conversations. The conference created an ideal environment where I was able to meet with potential investors, content providers, other mobile network operators, and wholesalers—all within the span of two days. It was a highly productive experience that facilitated valuable connections and opportunities."

Farouk Ramji, CEO, Mawingu

"CCT Africa 2024 was a remarkable event that successfully brought together leading minds from the cloud, content, and telecoms sectors across Africa with facilitated discussions on the strategic challenges and opportunities that will shape the future of connectivity and digital infrastructure on the continent. The platform has inadvertently fostered a shared understanding of the critical issues affecting our industry. The event's focus on partnership, open dialogue, collaboration and innovation is something I believe is essential for addressing Africa's evolving digital needs, and it has laid the groundwork for actionable solutions that can drive sustainable growth in the connectivity ecosystem, and unlock the full potential of Africa's digital future."

Stanley Jegede, Chairman,
PHASE 3 TELECOM

Founding Companies

CCT Africa was founded in 2023 with Angola Cables, Liquid Intelligent Technologies and WIOCC. These forward-looking organisations working with us saw the real need to have a C-level forum where executive leaders could come together and have open discussion that would help impact change and help to solve many of the challenges to enable advancement of connectivity and infrastructure across Africa and thus change the lives of millions. Their support was fundamental to bringing this summit to Africa and we look forward to building on the success of both our inaugural summit in 2023 and our 2024 summit.

Registration and Participation

Participation is by invitation-only and attendees must meet executive-level criteria. Please contact Rachel Jones for more information on racheljones@theintelligentnetwork.net There is a fee of €400 per attendee to attend. This does not include travel and hotel accommodation.

GOLF EVENT

Hosted by: **angolacables** deepconnection and **ciena**

Location: Montchoisy Golf Club
Tee-off Time: 8.45am
Lunch on the 18th Hole: From 1.30pm

All CCT Africa 2025 attendees are invited to participate.
Attendees MUST confirm participation in advance
by emailing _racheljones@theintelligentnetwork.net._

6.15pm | Pre-event Cocktail Reception
  Location: Pool Deck, Trou Aux Biches Beachcomber Resort & Spa Hotel   Hosted by: **CMC NETWORKS**

7.45pm | Beach BBQ
  Location: Location: La Plage Restaurant, Trou Aux Biches   Hosted by: **WIOCC GROUP**
  Beachcomber Resort & Spa Hotel

Tuesday 8 July 2025

8.00am | Registration and Coffee

8.30am | Opening Welcome Remarks

8.35am | KEYNOTE MINISTERIAL ROUNDTABLE
  RESILIENCY AND PROTECTING AFRICA'S DIGITAL FUTURE THROUGH INVESTMENT IN CRITICAL INFRASTRUCTURE: BUILDING A UNIFIED DIGITAL MARKET THROUGH CREATING A MORE INTERCONNECTED AND DIGITALLY ADVANCED AFRICA
  Moderator: Tim Passingham, Chairman, CAMBRIDGE MANAGEMENT CONSULTING
  Speakers:
  Ministers of Telecommunications from various African countries have been invited to participate in the keynote ministerial roundtable.

9.45am | Coffee Break   Sponsored by: **SEACOM**

Tuesday 8 July 2025 (Continued)

10.00am | **KEYNOTE SPOTLIGHT: THE LAST 12 MONTHS AND THE NEXT 12 MONTHS - ACCELERATING THE PACE OF CHANGE IN DRIVING AFRICA'S DIGITAL TRANSFORMATION FORWARD**
- The last 12 months; why is it different and what has changed?
- Growth – where has the growth come from?
- Demand – have the drivers of demand changed? What is causing declining corporate bandwidth revenues?
- Political risks – how are the new political risks impacting on the CCT ecosystem across the continent?
- Economic risks – what impact will the global economic risks have on the development of infrastructure and connectivity across the continent and the wider ecosystem?
- What impact will increasing cyber security risks have and what needs to be done to manage them?
- Cloud and revenues -lack of progress and speed outside South Africa? How does Africa host its own content; local players vs hyperscalers
- Subsea resiliency and diversity – what has changed since the cable cuts and Red Sea challenges?

The next 12 months
- Leveraging new technologies; the role AI will play and when? Bringing new capabilities to the network
- New cross-border collaboration and partnerships to enhance connectivity
- New investment opportunities; what needs to be put in place to encourage tech companies to invest
- New partnerships to accelerate development; satellite, wireless, terrestrial

Moderator: **Russell Southwood**, CEO, BALANCING ACT
Speakers:
Ian Paterson, GROUP CEO, CSQUARED
Germán Cufré, Global Head, Digital Infrastructure and Creative Industries, IFC
Schalk Erasmus, CEO, PARATUS GROUP
Alpheus Mangale, CEO, SEACOM
Mugo Kibati, CEO, TELKOM KENYA

11.15am | **Coffee Break**   Sponsored by: SEACOM

11.35am | **SOLVING THE END-TO-END CONNECTIVITY CHALLENGES: FIBRE NETWORK EXPANSION, CROSS BORDER AND INLAND CONNECTIVITY COLLABORATION – CO-INVESTING, CO-OPERATION AND SHARING INFRASTRUCTURE**
- New terrestrial fibre routes – progress update from the 2024 MoU
- Joining the dots – what needs to happen next? Which countries, which routes, where are the bottlenecks?
- Assessing strategic positions to move traffic North & East; linking Central African countries
- How can we work together to deliver the fibre connectivity needed across Africa? – cross border partnerships
- Fibre sharing, infrastructure sharing, cross border fibre projects and in-country mergers, inland partnerships
- Putting robust infrastructure in rural areas and the role of LEOs
- Investment needed to progress land partnerships; accessing funding

Moderator: **Lanre Kolade**, Chairman, CONNECTED COMPUTE
Speakers:
Stanley Jegede, Chairman, PHASE 3 TELECOM
El Hadji Maty Sene, Wholesale Director, SONATEL
Chris Wood, CEO, WIOCC
Alex Masu, Network Investments, Africa & Middle East Lead, META
Neo Nwako, Managing Director, ABARICOM
Edward Lawrence, Co-founder, YAFIBER

12.50pm | **Lunch**   Sponsored by: telecom mauritius

Tuesday 8 July 2025 (Continued)

2.30pm | **SUBSEA CONNECTIVITY INSIGHT: DIVERSITY, RESILIENCE AND COLLABORATION – TAKING A GLOBAL PERSPECTIVE**
- Assessing what changes have taken place since subsea cuts and Red Sea challenges; Has it changed the way industry and governments view subsea infrastructure; role of governments in protecting critical infrastructure; what still needs to be done?
- Taking a global perspective; Asia-Africa traffic, Asia-Europe traffic; impact on landlocked countries, impact around Africa
- What impact are the new subsea cables having on the market; Equiano, 2Africa and scale of capacity
- Resiliency and diversity; route diversity and cable landing diversity – what more is needed and how can it be financed?
- How do we drive down the cost for land-locked countries to access subsea cables?
- New potential subsea routes; financing, where are the gaps?
- Mobilisation of vessels – can we find solutions to mobilisation challenges by collaborating?

Moderator: **Chris George**, Founder, SELF INFRASTRUCTURE
Speakers:
Norman Albi, CEO, AFR-IX
Yonas Maru, Managing Director, BCS
Pete Hall, Managing Director, CIENA
Justin Gianchand, Network Investment Manager, META
Prenesh Padayachee, Group Chief Digital Officer, SEACOM

3.30pm | **Coffee Break**   Sponsored by: **SEACOM**

4.00pm | **REPORTING BACK: 2024 MOU**
1.BUILDING SKILLS AND TALENT TO MEET THE GROWING DEMANDS WITHIN AFRICA - INNOVATION, RESEARCH AND DEVELOPMENT: PREPARING AFRICA'S WORKFORCE FOR A DIGITAL FUTURE
Moderator: **Tim Passingham**, Chairman, CAMBRIDGE MANAGEMENT CONSULTING
Speakers:
Andile Ngcaba, Executive Chairman and Founding Partner, CONVERGENCE PARTNERS
Mugo Kibati, CEO, TELKOM KENYA

2.THE PAN-AFRICAN NETWORK OF INTERCONNECTED INTERNET EXCHANGES
Angelo Gama, CEO, ANGOLA CABLES
INTERCONNECTIVITY CHALLENGES AND OPPORTUNITIES IN AFRICA: FUTURE PARTNERSHIP MODELS AND COLLABORATION
Speakers:
Angelo Gama, CEO, ANGOLA CABLES
Nurani Nimpuno, Head of Global Engagement, LINX

5.45pm | **Cocktail Reception Location: La Plage**   Sponsored by: **TOUCHNET**

7.45pm | **CCT Africa 2025 Dinner Location: Mahiya Restaurant**

Wednesday 9 July 2025

8.30am | Welcome Coffee

8.45am | DIGITAL INFRASTRUCTURE FINANCING AND INVESTMENT IN AFRICA
- Current and future investment opportunity outlook; networks, fibre links, building DC capacity, drivers of M & A
- Evaluating digital infrastructure initiatives; view from the DFIs
- Has tech infrastructure slowed down in Africa?
- How can the challenges of an uncertain investment environment be overcome? What will be the impact of Investment shortfall on the development of infrastructure and connectivity across the continent?
- Overcoming key challenges of doing business in Africa; taxation, regulatory regimes, attracting private sector investment through incentives; developing win-win partnerships for both parties

Moderator: **Russell Southwood**, CEO, BALANCING ACT

Speakers:

Premeshin Naidoo, MD, TMT, ABSA

Ilias Djouai, Vice President, Heavy Industry Telecoms & Technology, AFC

Nicholas Williams, Head, ICT Division, AFDB

Moritz Thompson, Investment Director - Pan Africa, AIIM

Andile Ngcaba, Executive Chairman and Founding Partner, CONVERGENCE PARTNERS

Kumbi Gundani, Executive Vice President, Telecommunications, Media & Technology, Corporate & Investment Banking, STANDARD BANK GROUP

10.00am | Coffee Break

10.30am | UNLOCKING THE VALUE OF THE CLOUD: RETHINKING CLOUD IN AFRICA AND DEVELOPING NEW PARTNERSHIPS TO SUPPORT CLOUD-BASED SERVICES
- Drivers of demand and adoption of digital services and products, enterprise cloud services – lack of enterprise demand and impact on development of the market and access to global cloud infrastructure; how can demand be accelerated?
- Opportunities in fintech, IoT and security

Development and impact of new public cloud regions; local cloud providers vs hyperscalers
- How will AI be applied, will it bring new capabilities to the market and how far away is it for Africa? Could it unlock new growth potential for telcos?
- Public vs private clouds, multi-cloud strategies
- Developing partnerships to support cloud migration and upskilling

What solutions can be put in place to to overcome key challenges; local supply chain shortages, power reliability and access, data residency and localisation challenges, cross border data traffic flows, talent and skills

Moderator: **Chris George**, Founder, SELF INFRASTRUCTURE

Speakers:

Charly Bahous, CEO, TOUCHNET

Geoff Dornan, Group Chief Technical Officer, CMC NETWORKS

Veemal Gungadin, CEO, MAURITIUS TELECOM

Amine Kandil, CEO, N+ONE DATA CENTERS

Anthony Voscarides, CEO, WINGU

Ryan Sher, Group COO, WIOCC

Wednesday 9 July 2025 (continued)

DATA CENTRES, INTERCONNECTIVITY AND THE CLOUD: REVIEWING AND REASSESSING DATA CENTRE AND CONNECTIVITY MODELS ACROSS AFRICA: LOCATION, SCALE, AND CUSTOMER DEMAND

● Location and scale of existing facilities; why have projects stalled and what more is needed? Where is the customer demand and what does the market need? Why has the data centre market not materialised as anticipated? How can demand be accelerated? Scale, location and access

● How do we find the solutions to the challenges; access to reliable, stable power; co-power projects and sustainability, funding, balancing goals of digital growth and sustainability targets

● Is there value in pursuing different strategies rather than replicating those of Europe and the US? What new opportunities are arising?

Moderator: Chris George, Founder, SELF INFRASTRUCTURE

Speakers:

Ikechukwu Nnamani, CEO, Nigeria, DIGITAL REALTY

Snehar Shah, CEO, IX AFRICA

Johnson Agogbua, CEO, KASI CLOUD

Amine Kandil, CEO, N+ONE DATA CENTERS

Anthony Voscarides, CEO, WINGU

Ryan Sher, COO, WIOCC

12.45pm | Lunch   Sponsored by: **EMTEL** business

2.15pm | LOCAL ACCESS AND LAST MILE SOLUTIONS: SATELLITE, WIRELESS AND FIBRE – REACHING UNDERSERVED AND UNSERVED MARKETS

● Evaluating alternative business models to deliver local access solutions

● Addressing the challenges of putting robust infrastructure in place in rural areas; LEO satellite solutions to reach rural and low-income segments of the population

● LEO solutions to enable new use cases

● Challenges; depth of connectivity, speed and pricing – can these be overcome?

● Rural TowerCo partnerships and shared rural networks

● Leveraging alternative technologies to enhance connectivity

● Developing integrated solutions with satellite, 5G wireless, fibre to deliver low-cost solutions with high quality connectivity

● What does a complementary investment strategy look like for connectivity infrastructure?

Moderator: Tim Passingham, CEO, CAMBRIDGE MANAGEMENT CONSULTING

Speakers:

Brian Munyao Longwe, CEO, CONVERGED TECHNOLOGY NETWORK

Lorentz Chidue Nwachuku, TMT Lead Africa, Infrastructure & Natural Resources, Africa, IFC

Jacques du Toit, CEO, VOX TELECOM

Yanniv Betito, VP, EMEA, TELESAT

Tauriq Brown, CEO, TOOMUCHWIFI (TMWF)

3.15pm | Coffee Break

3.35pm | DRIVING ACCESS TO CONTENT ACROSS THE CONTINENT: MEDIA, ENTERTAINMENT AND GAMING – UNDERSTANDING CONNECTIVITY AND INFRASTRUCTURE REQUIREMENTS AND CHALLENGES

Moderator: Russell Southwood, CEO, BALANCING ACT

Speakers:

Ayesha Chowdhury, Senior Manager, Global Digital Business & Senior Leadership Board Advisor, BBC WORLD SERVICE

Guillaume Noe, VP of Growth, Platform, CARRY1ST

Germán Cufré, Global Head, Digital Infrastructure and Creative Industries, IFC

Myke (Mugo) Mwai, Head of Communication and Content Syndication, STARTIMES KENYA

4.40pm | End of CCT AFRICA 2025 Executive Summit

7.00pm | Closing CCT Africa 2025 Reception

Platinum Partners

Angola Cables is an internationally established ICT digital solutions and network services provider and has been ranked as the most interconnected operator* on the African continent. Through our integrated IP networks and data centres, we provide extensive, low-latency, direct access connectivity to the largest IXPs, Tier 1 operators and global content providers.

 Through our owned, high-capacity SACS, Monet, WACS and third-party submarine cable networks, the company directly connects to more than 20 Points of Presence and Internet Exchange Points in the Americas, Africa, Europe and Asia.

 Angola Cables also operates two data centres, AngoNAP Fortaleza Tier III (Brazil) and the data centre, AngoNAP Luanda (Angola), and manages PIX in Brazil and Angonix Angola - one of the largest Internet Exchange Points (IXPs) in Africa. Through our partners and resellers in selected markets we offer advanced and secure connectivity solutions and services to a range of customers across multiple industries. *The Center for Applied Internet Data Analysis (CAIDA) 2022

For more information, visit the website: www.angolacables.co.ao

Phase3 Telecom is a leading digital infrastructure provider, transforming broadband connectivity across Africa. With an extensive aerial fiber optic network and cutting-edge FTTx (Fiber-to-the-X) solutions, Phase3 delivers high-speed internet, enterprise connectivity, and next-generation digital services. Our expertise spans MVNO operations, data centers, and digital banking, enabling businesses and communities to thrive. Committed to bridging the digital divide, Phase3 leverages strategic partnerships and innovative technology to power Africa's digital future —driving connectivity, inclusion, and sustainable growth.

For more information, visit the website: www.phase3telecom.com

WIOCC Group is a parent company, which currently comprise WIOCC and Open Access Data Centres (OADC). WIOCC Group are creating an environment in which all Africans can take advantage of world-class technology developments to build better lives, better businesses, and a better world. The groups commitment to Africa is to create and deploy a converged open- access digital infrastructure which will expedite digital transformation across the continent.

To learn more about the WIOCC Group, please visit www.wiocc.net

Gold Partners

Ciena (NYSE:CIEN) is a networking systems, services and software company. We provide solutions that help our clients create the Adaptive NetworkÔ in response to the constantly changing demands of their users. By delivering best-in-class networking technology through high-touch consultative relationships, we build the world's most agile networks with automation, openness and scale.

To learn more about Ciena, please visit www.ciena.com

Gold Partners (continued)

Mauritius Telecom is the leading provider of an extensive range of ICT services and solutions in Mauritius for both residential customers and businesses, including fixed, mobile, internet, TV, mobile money, ICT, a Tier IV Datacentre and digital services. Through its numerous initiatives, Mauritius Telecom has paved the way for the growth of the ICT industry, which has become a major pillar of the Mauritian economy. The Company had completed island-wide fibre deployment, thereby enabling Mauritian citizens and businesses to benefit from ultra-high-speed broadband internet, of up to 1Gbps. Innovation being embedded in its DNA, Mauritius Telecom has launched several game changing offers and services including my.t money, a service that has revolutionised the payments industry as well as unlimited prepay and postpay data packages. In 2021, MT once again led Mauritius' digital evolution, bringing in a new era of connectivity on mobile through the launch of the first my.t 5G Experience Zones in Mauritius.

Established in 1989 as the first mobile telecommunications operator in the Southern Hemisphere, Emtel Ltd has consistently led the way in connecting Mauritius to the world. Over the years, Emtel has expanded its services to become a premier provider of ICT solutions. Through Emtel Business, the company offers a comprehensive suite of enterprise services designed to meet the evolving needs of organisations.

Emtel Business provides high-speed local and international connectivity, secure private networks and dedicated internet services, ensuring seamless and reliable communication for enterprises. Its state-of-the-art data center, certified with an ANSI/TIA-942-B Rated 3 certification, delivers robust colocation services, and offers a range of cloud services, including Infrastructure as a Service (IaaS) solutions, Backup solutions, and Disaster Recovery as a Service (DRaaS), helping organisations to safeguard critical data and maintain business continuity.Demonstrating a commitment to innovation, Emtel launched the country's largest 5G network, offering ultra-fast speeds and low latency to enhance user experience. This dedication to technological advancement was recognized when Emtel was awarded the 'Fastest Mobile Network in Mauritius' by Ookla® in both 2023 and 2024, and the 'Fastest Mobile Network in East Africa' in 2024.

Beyond terrestrial services, Emtel is making significant strides in the space economy through its subsidiary, Emtel Technopolis. In partnership with Eutelsat Group, Emtel established the first satellite ground station in the Indian Ocean, enhancing connectivity services and positioning Mauritius as a key player in global satellite communications.

Emtel Business remains dedicated to driving positive growth and impact for enterprises, continually integrating purpose with technology to build a smarter and more connected future for Mauritius and its surrounding regions. For more information, please visit https://www.emtel.com/business.
